

**Electrostatic cleaning by Citron Hygiene is done here!**

## The Professional Fix: Electrostatic Spray Technology

You may be able to take small steps to keep your environment cleaner than most, but ultimately, you'll need professional services to effectively combat the spread of disease.

**Electrostatic spray technology** is one professional fix that uses an electrical charge to allow the appropriate sanitizers and disinfectants to wrap around and evenly coat all types of surfaces for a more complete clean.

Citron Hygiene was recently awarded Ecologo Certification for its EcoClean™ formulation, a product that is used in its Electrostatic Spray System. EcoClean™ is a proprietary, non-toxic, natural enzyme-based solution.
